Professional Summary

Geospatial Scientist and GIS Consultant with a Ph.D. in Cartography & GIS (Wuhan University, China) and 45 peer-reviewed publications spanning remote sensing, urban mapping, and hydrology. Invented novel spectral indices (GISAI, NSAI) for AI-driven impervious surface extraction using multi-sensor satellite fusion (optical, SAR, and 64-band satellite embeddings). Currently directing geospatial research and consultancy for three organisations in Bangladesh, with expertise in Google Earth Engine cloud computing, spatial modelling, and environmental risk assessment.

Professional Experience

Hydrology & Geoinformatics Specialist *May 2026 – Present*
C4RE (Centre for Research on Environment and People)
Directs geospatial research and technical frameworks for evidence-based hydrological project roadmaps.

Founder & Geospatial Consultant *Feb 2026 – Present*
Maplicon, Bangladesh
Leads a specialist consultancy delivering remote sensing analysis, GEE automation, and spatial data science to research institutes and NGOs.

Research Coordinator (Part-time) *Mar 2026 – Apr 2026*
Center for People & Environment (CPE)
Directed the research division's translation of technical findings into policy recommendations, and led a four-investigator field team across four northern districts for MJF's gender-responsive climate adaptation (CREA) project.

GIS Analyst *Feb 2025 – Jan 2026*
Institute of Water Modelling (IWM)
Georeferenced and digitized national cadastral maps for a land-zoning project; cut team processing time by 20%.

Education

Ph.D. *2017 – 2024*
Cartography and GIS
LIESMARS, Wuhan University, China

M.S. *2014 – 2015*
Geography and Environmental Studies
University of Rajshahi

B.Sc. *2010 – 2013*
Geography and Environmental Studies
University of Rajshahi

Core Competencies

Remote Sensing & GIS:	GEE, ArcGIS, QGIS, SAR/Optical fusion
AI / Machine Learning:	Random Forest, XGBoost, Deep Learning, NNs
Programming:	Python, R, JavaScript, SQL, LaTeX
Field Surveys:	RTK/GPS, Total Station, UAV operations
Analytics:	Power BI, SPSS, spatial databases
Project Management:	PMP/APM, Gantt charts, team leadership

Language Proficiency

Bengali Native speaker.
English Professional Command. IELTS test score: overall 6.5 (2017).
Dialects Comprehension of Asian English dialects including Indian English and Chinese English.
Urdu Conversational proficiency.
Hindi Conversational proficiency.
